Thanks for your response Holly,

I've included a link to Mr Quall's organization, it's a not-for-profit called Take Charge Minnesota. This should give you the information you're looking for regarding his organization, their mission statement, etc. I would encourage you to scroll down to the bottom of this link so that you can read his bio, it's very interesting and he has overcome a lot to become an incredibly successful individual.

He has worked with other districts in the state including Minnetonka. Please forward this the rest of the board members so that they too can have the link to his organization.

We hope that at least one person from the board, or a representative from the district, will be attending. It will be an excellent opportunity to learn as well as provide an olive branch to the community in terms of recent events that have resulted in frustration.

<https://takechargemn.com/>

Warm Regards,

[REDACTED]
