[REDACTED],

I would love to attend the meeting with Kendall. I am familiar with him and his viewpoints, I also would like to meet him and hear him speak on education. Unfortunately I have an out of town meeting early on the 22nd so I will be gone on the evening of the 21st.

I appreciate the respectful emails and suggestions that you bring to me as a school board member. We hear many voices and I hear from some very disrespectful people. The tone of your emails is encouraging because you look at an issue and bring your viewpoint without derogatory comments or speech.

Joel Nelson  
School Board Director
